B.Pharma (Sem.–1)

PHARMACEUTICAL ANALYSIS-I

Subject Code : BP-102T

M.Code : 74645

Date of Examination:21-12-2023

Time : 3 Hrs.

Max. Marks : 75

INSTRUCTIONS TO CANDIDATES :

1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.
2. SECTION-B contains THREE questions carrying TEN marks each and student has to attempt any TWO questions.
3. SECTION-C contains NINE questions carrying FIVE marks each and student has to attempt any SEVEN questions.

SECTION-A

1. Answer briefly :

a) What are systematic errors and random errors?

b) Which parameter is used to compare strengths of two acids?

c) Write the equation involved in the titration of iodine and sodium thiosulphate solutions.

d) Write the conditions for the process of digestion in Gravimetry.

e) Which indicator will you prefer for titration of acetic acid against sodium hydroxide?

f) Give one example each for indicator electrode and reference electrode.

g) Draw the conductometric titration curve for strong acid with a weak base.

h) Write the principle and applications of Polarographic analysis.

i) What are the precautions to be taken while preparing perchloric acid as titrant?

j) Write the structure of EDTA.

SECTION-B

2. Explain the rationale for gravimetry and outline the steps for barium sulphate estimation?
3. Explain non-aqueous titrations and how is Ephedrine Hydrochloride estimated using it?
4. Explain the fundamental principle, methods and applications of diazotization titration.

SECTION-C

5. Describe the various methods to minimize the errors.
6. Explain the Quinonoid theory of indicators with example.
7. Write the principle and instrumentation of conductometry.
8. Describe Volhard method in precipitation titrations.
9. Explain the principle and procedure involved in the estimation of Calcium Gluconate.
10. Differentiate between iodimetry and iodometry.
11. Explain what is co-precipitation and post-precipitation with examples.
12. Give note on construction and working of reference electrodes used in potentiometry.
13. What is polarography? Explain the terms

    a) Limiting current

    b) Polarographic maxima.

NOTE : Disclosure of Identity by writing Mobile No. or Making of passing request on any page of Answer Sheet will lead to UMC against the Student.
