Total No. of Questions :13

B.Pharmacy. (Sem.–3)

PHARMACEUTICAL ORGANIC CHEMISTRY-II

Subject Code : BP-301T

M.Code : 93323

Date of Examination : 16-12-2024

Time : 3 Hrs.

Max. Marks : 75

INSTRUCTIONS TO CANDIDATES :

1. **SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.**
2. **SECTION-B contains THREE questions carrying TEN marks each and student has to attempt any TWO questions.**
3. **SECTION-C contains NINE questions carrying FIVE marks each and student has to attempt any SEVEN questions.**

SECTION-A

1. **Write briefly :**

   a) Name various analytical constants used to determine quality of fatty acids.

   b) What is friedel craft alkylation reaction?

   c) What are bent bonds?

   d) What is Kolbe reaction?

   e) Convert aniline into 1,3,5-Tribromobenzene.

   f) Write any two tests for detection of phenols.

   g) Which electronic groups will increase the acidity of benzoic acid?

   h) Give the structure and uses of BHC.

   i) Write any two methods of preparation of anthracene.

   j) What are drying oils?

SECTION-B

2. What are Diazonium compounds? Comment upon their stability and write a detailed note on their role organic synthesis.

3. Define aromaticity. Discuss giving examples various conditions required for a compound to be aromatic.

4. Write a detailed note on the various reactions of Fatty acids. Comment upon hydrolysis and rancidity of oils.

SECTION-C

5. Comment upon various electrophillic substitution reactions of benzene.

6. Give various methods of preparation and reactions of benzoic acid

7. Explain the theory of strainless rings.

8. Give the significance and principle involved in the determination of saponification value of fatty acids.

9. Comment upon the methods of preparation of cycloalkanes.

10. Write down various methods for synthesis and reactions of Aniline.

11. Write a detailed note on synthetic methods of naphthalene.

12. Write the structure and uses of DDT and Saccharin.

13. Write a detailed note on chemistry of isolated polynuclear hydrocarbons.
