Total No. of Questions : 13

B.Pharma (Sem.-4)

MEDICINAL CHEMISTRY-I

Subject Code : BP-402T

M.Code : 75844

Date of Examination : 09-12-2024

Time : 3 Hrs.

Max. Marks : 75

INSTRUCTIONS TO CANDIDATES :

1. SECTION-A is COMPULSORY consisting of TEN questions carrying TWO marks each.
2. SECTION-B contains THREE questions carrying TEN marks each and student has to attempt any TWO questions.
3. SECTION-C contains NINE questions carrying FIVE marks each and student has to attempt any SEVEN questions.

SECTION-A

1. **Explain the Terms :**

   a) Briefly explain the role of the partition coefficient in drug action with an example.

   b) Define chelation.

   c) Give the structures of catecholamines act as neurotransmitters.

   d) Give structures and IUPAC names of any two parasympathomimetics.

   e) Comment on tissue distribution of cholinergic receptors.

   f) Give structures and IUPAC names of any two acidic NSAIDs.

   g) Give structure and medicinal use of any one narcotic antagonist.

   h) Give typical structural features for a compound to be anticonvulsant.

   i) Give structure and medicinal uses of Clonazepam.

   j) Give synthesis of Halothane.

SECTION-B

2. Explain SAR of parasympathomimetic agents. Give synthesis and mechanism of action of Neostigmine.

3. Explain SAR of phenothiazine class of antipsychotic. Give synthesis and mechanism of action of Chlorpromazine hydrochloride.

4. Describe various classes of anticonvulsant citing one structural example of each class. Give synthesis of Phenytoin.

SECTION-C

5. Explain the effect of ionization solubility of drug molecules on their action.

6. Describe the factors affecting drug metabolism.

7. Describe the role of Cytochrome P450 system in drug metabolism.

8. Give synthesis and medicinal uses of propanolol.

9. Write short note on direct acting parasympathomimetic agents.

10. Describe the hydantoin class of anticonvulsants.

11. Give synthesis and mechanism of action of Mefenamic acid.

12. Write short note on dissociative anesthetics.

13. Describe structures and functions of cholinergic neurotransmitters.

NOTE : Disclosure of Identity by writing Mobile No. or Making of passing request on any page of Answer Sheet will lead to UMC against the Student.
